Condor Is Vacation And Vacations Are Striped

Condor Company Profile

Condor has been bringing its guests to the world's most beautiful vacation destinations since 1956. With a fleet of over 50 aircraft, Condor flies more than nine million passengers to approximately 90 destinations in Europe, Africa and America every year.

In spring 2022, Germany's most popular vacation airline unveiled its new brand identity:

Condor is vacation. And vacations are striped.

Inspired by beach umbrellas, beach towels and beach chairs, Condor now features stripes in five colors. The new design was unveiled with the first A330neo, which started flying for Condor at the end of 2022. Since then, Condor has been flying 18 A330neo long-haul aircraft, which will be followed in 2024 by 41 brand-new short and medium-haul aircraft from the A32Xneo family.

Register. Bid. Take Off!

Our latest cooperation with Seatboost now allows passengers to bid on the best seats on selected long-haul flights.

Here is how the live auction for free seats in higher booking classes works:

- 1.** Download the free SeatBoost app.
- 2.** Enter your Condor flight information and add a credit card as a means of payment.
- 3.** Join the auction and start bidding.
- 4.** The upgrade is activated immediately to the highest bidder. The new boarding pass is then uploaded to the SeatBoost app.
